Detailed description: This is a schematic of a handheld device screen for selecting an expense type. The screen is titled 'Expense Type'. It contains a list of expense categories arranged in two columns. Each category is preceded by an empty radio button. A double-headed vertical arrow is positioned to the right of the first two items in the first column. Below the list is a 'Done' button. The device's physical interface, including a numeric keypad and other buttons, is shown at the bottom of the screen frame.
